Winemaking and Viticulture

Fruit was harvested and crushed directly to the press, where only the free run juice was selected. Juice was racked, warmed and fermented using specially selected aromatic yeast, chosen to accentuate the primary fruit characters. The blended wine was allowed to undergo secondary fermentation in tank to obtain the gas effervescence and yeast complexity then sitting on yeast lees for a further extended period to add further creaminess, complexity and long finish.

Tasting Comments

Mid straw green in colour with a fine gas bead and persistent mousse. The refreshing lemon citrus aromas are in harmony with the zesty lift of the Semillon. A very refreshing, easy drinking sparkling style wine, with generous citrus fruit flavours enhanced with creamy mouth filling characters and where the wine finishes soft, crisp and clean. The perfect aperitif on its own or enjoy with fresh fruits or seafood. For immediate enjoyment, however, the wine will continue to soften with more complexity over the next 2 to 3 years.
